EXPERIENCE

volunteer

ALU Library Rwanda

January 2025, ongoing, Rwanda

- I help with moderating events, recommend books for students, and contribute to organizing library events.

Residential Advisor

African Leadership University

September December 2024

- My role was to organize fun events for the students, check in for students (make sure there are no visitors past the time, and students present in the residence have registered for the services they're being given, food, and accommodation).

EDUCATION

Undergraduate Studies

African Leadership University (ALU) • Rwanda • September 2024 – Ongoing

Senior High School

Lycée SOS HG • Bujumbura • September 2018 – July 2021

- I have completed my studies with the highest honors in the scientific section, specifically in the Biology Chemistry and Earth Sciences track at SOS High School.
- I obtained a certificate of honor granted by SOS High School for having occupied the 1st place in the state exam in the whole high school and in my class with a greater percentage.

Junior High School

Independent School • Bujumbura • September 2015 – July 2018

- I completed a general curriculum that included Mathematics, Languages, Social Sciences, Sciences & Technology, and Entrepreneurship.
- I received a Top Student of the Year honor in 9th grade, and I was in the top 5 in the National Test, a test done by 9th graders to evaluate their intellectual capacities and verify if the students are ready for their senior high school studies.

CERTIFICATIONS

DELFB2 diploma

French language studies • January 2022

- I hold an internationally recognized DELFB2 diploma in French language studies with a final score of 90/100 after all written and oral tests.

INVOLVEMENT

Student

Burundi • Tujenge Africa Foundation • January 2022 – May 2023

- I have learned leadership skills through community services, gained an in-depth understanding of several fields in sciences (genetics, brain science, physics, philosophy, evolution-related topics, media and programming & artificial intelligence), and literature.
- I have had several opportunities to achieve programming projects both in my free time and in classes.

environmental activist

FebruaryMay 2023

- I implemented a road cleaning near where I study in May 2023 and two beach cleanups at Safi Beach near the port of Bujumbura.
- I invited all fellow Tujenge scholars and staff to be part of my projects.

- I am proud of the impact that we had, especially at the beach we collected around one hundred bags full of trash on both occasions.
- We carried all of the plastic trash collected to be recycled by a local recycling company that transforms plastic into bricks used for pavement in houses.
- I also raised awareness of the harm of plastic through social media.

part of

Youth Committee at my church

- I organize social events for the youth.
- I have already organized a new year event for The Youth to strengthen bonds between young people, get to know each other, and share about our spirituality.
- I also organized a visit to a fellow member of The Youth who lost her relatives, in order to express our compassion and empathy for her and her family.

Pan-African Youth Leadership Program • July-August 2022

- There, I learned leadership skills and how to creatively implement projects.
- It was through this program that I received funding for my beach cleanup projects.

pre-university mentorship program

Christian Life Ministries church • September 2021 January 2022

- I learned to organize my time, to be a servant leader through volunteering in event planning, and I was even involved in the organizing team for the annual Christianity youth event called Campus Vibe.

participant

John Maxwell Team's Global Youth Initiative Youth Leadership Event • April 2021

Vice President of the Journalism Club
